"Electric Aggression"

Rock music has come a long way since its inception. It has become faster, harder and heavier over the years. Images of lightning and fire have always been viewed as symbols of power, and these powerful images have always been associated with more aggressive music such as heavy metal and hard rock. Custom-color sharktooth inlays and pickups for the GRGR011LTD and metallic pickups for the GSR011LTD2 are meant to emphasize the "aggressiveness" visually.

"Xclamation"

The Punk Rock movement was mainly based on one thing: rebellion. Hard-edged, loud, and lively, Punk Rock is in-your-face and makes no apologies for it. Punk made a lasting impact on fashion, with the use of vivid colors and iconic symbols. The GART011LTD-SXB gives a nod to these traits of punk fashion with an eye-catching "X" design featured on its body.

"Psychedelicious"

The Psychedelic era in pop music is known for trying new things and breaking the mold. The GSR011LTD1-PSE utilizes the concept of making a right-handed bass from the body of left-handed one, creating a bass with a certain psychedelic vibe. It is painted with a distinct color scheme and also features a paisley motif, both paying respect to past designs associated with the psychedelic movement.
